## NOTICE OF ASSESSMENT.

**CARSON STEAM LAUNDRY.**—Location of principal place of business, Carson City, Nevada.—Location of works, Carson City, Nevada.—Notice is hereby given that at a meeting of the Board of Trustees, held on the 5th day of June, 1886, an assessment (No. 1.) of Two Dollars (\$2) per share was levied upon the capital stock of the corporation, payable immediately in United States gold and silver coin, to the Secretary at his office in Carson City, Nevada. Any stock upon which this assessment shall remain unpaid on Wednesday, the Seventh (7th) day of July, 1886, will be delinquent and, unless payment is made before, will be sold on Thursday, the 5th day of August, 1886 to pay the delinquent assessment, together with costs of advertising and expenses of sale. By order of the Board of Trustees. JOHN M. DORMER, Secretary.

## ASTRAY.

Pair of large bay horses, white stripe on faces; small one branded G R on right hip and large one branded with diamond and G in center. Owner can have them by proving property, and paying cost of keeping and advertising. Inquire at the Poor Farm. A. B. BOLES June 29th

## Plumbing

J. H. McGuirk the plumber, is now situated in the Opera House block and all jobs of tinning and plumbing in trusted to his care will be attended to in a workmanlike manner, and you don't have to mortgage your house to pay for it.

## Milk! Milk!!

Fresh, pure, clean and unadulterated milk delivered morning and evening at any part of the city. No water, no dirt; nothing but milk. One quart one month, \$2.50. Ross & Swail, may19th

## Ice! Ice!! Ice!!!

People wanting ice will leave their order at Doc. Benton's Livery Stable, ice delivered to any part of the city. may12th

—WANTED—A partner, either active or silent, to invest from \$500 to \$1,000 in a legitimate, profitable business, no competition, in Carson City. Address, J. H. MCKINLEY, MERCANTILE, Carson Postoffice.

Siddons, the watchmaker and jeweler, has opened a shop opposite the Opera House, where he is prepared to attend to all work in his line as formerly. Watches, clocks, jewelry etc. repaired and warranted.

George McLoughlin is the sole agent in Carson for the "New Domestic" sewing machine. A machine which is now at the acknowledged head of the long line of machines offered the public Perfect in action noiseless and lasting

—For the best horse liniment now in the market go to Doc. Benton. It is his own make, and warranted to beat all the fancy brands. ejy6th

WANTED—A situation as a clerk, by a colored man who understands his business. Apply at this office. may20th

FOUND—A Masonic sleeve button. The owner can have it by proving property and paying for this advertisement.

WANTED—A situation in a private family, to do general housework. Apply at this office. may20th

—WANTED TO RENT—House in the Northern part of the city. Inquire at this office.

—WANTED—A house to rent or purchase. Inquire at this office. jys6

## ALL NORTH.

—Bloody rioting in Belfast.  
—Mrs. Hy. Doane is conveyed.  
—John Mackay is not a candidate.  
—Maxwell is sentenced to be hanged.  
—There are rumors of a strike in the Ophir.  
—Another thunder storm visited the city yesterday.  
—John Muldoon wants whitemen to cut wood for him.  
—Bishop Whittaker is still undecided about leaving Nevada.  
—Lost—An ice hook. The finder will please return to Benton's stable.  
—George W. Chubbuck has received a new locomotive at Lake Tahoe.  
—One of the artesian wells in Sierra Valley has begun to yield natural gas.  
—The State Teacher's Institute will be held in Reno, on July 27th, 28th and 29th.

—Chas. Ruedin, of Virginia City, died from sunstroke on the Santa Anita ranch on the 12th.  
—The District Attorney is about to push a number of city license suits in accordance with law.  
—Most of the men who wanted pardons of the State Board went back into the quarry to work.  
—J. Blenman, traveling agent of the Sacramento Bee, is spending a few days in the city in the interests of his live journal.  
—Warren Sheridan telegraphed to Virginia City that he was coming up "with the sack" and five thousand men of all political shades were at the depot to meet him.

—The Seattle team did not shoot on Sunday because of the red hot city election. So Geo. Lyon telegraphs. It is certainly a queer county where elections are held on Sunday.

—The Press Association from California reaches here on the 24th, but so far our citizens have made no provisions for a suitable reception for the California editors. Some steps should be taken at once.

—The Knights of Labor are justly indignant at police espionage of their meetings in New York. They are not Anarchists nor law-breakers; and have as much right to hold executive sessions as has the United States Senate.

—To most children the bare suggestion of a dose of castor oil is nauseating. Why not, then, when physic is necessary for the little ones, use Ayer's Cathartic Pills? They combine every essential and valuable principle of a cathartic medicine, and being sugar coated are easily taken.

—Hendricks, the Treasurer of Umatilla county, Oregon, has turned over his books, showing a shortage of \$18,000. He is "an old and respected citizen and is crushed by the exposure." The strange thing is how well these old and respected embezzlers bear up under the tortures of a guilty conscience before they are found out.

—Watts the infamous mate of "The Gatherer" has been pardoned by the President.

This man is the vilest dog that was ever whelped and the record of his brutalities would fill volumes. Had Cleveland examined this case with the same microscopic care that he scans soldier's pensions he might have acted differently.

—Almost every person has some form of serofulous poison latent in his veins. When this develops in serofulous sores, ulcers, or eruptions, or takes the form of rheumatism, or organic diseases, the suffering that ensues is terrible beyond description. Hence the gratitude of those who discover, as thousands yearly do, that Ayer's Sarsaparilla will thoroughly eradicate this evil from the system.

## All Smooth at the Ormsby.

Mr. Kaiser, who was obliged a few weeks ago to temporarily employ a Chinese cook, has now nothing but white cooks, which are giving good satisfaction, and everything is running smoothly there at present.

## The Laundry Stock.

Out of 500 shares of Laundry stock 254 shares, a majority of the stock, has been paid. The delinquent list will be published in the APPEAL on Saturday morning.

## SULPHUR AND FROGS.

### A Shower of Both Fell at the States Prison.

Yesterday morning the States Prison was visited by a deluge of rain and the heaviest part of the thunder storm.

In the morning the officers of the Prison were astonished to find the ground covered with sulphur left after the rain had dried or soaked in the ground. The deposit varied from a sixteenth of an inch to an inch and a half thick and was everywhere. It was swept off the stone walk like snow and was also found in quantities on the roof. It was as fine as flour and of a pure yellow color. There were also millions of young frogs about half an inch long

Quite a number of parties went out to the Prison yesterday to verify the story and all were satisfied that it was sulphur.

The explanation of the phenomenon is that a water spout scooped up the frogs and sulphur from some lake and deposited it at the Prison.

### Good Riddance.

A young man known by the sobriquet of "Oofy Goofy" started from the Seaside Gardens Monday, with the announced intention of walking to New York, and to push all the way a small wheelbarrow. He says he will make the distance in 320 days, and believes if he does it that he will get \$2,000 from a New York sporting man and be the acknowledged champion of America.

A gentleman from San Francisco informs the APPEAL that there was no offer of \$2,000 by any New York party to the man who would walk across the continent. "Oofy Goofy" had become a chronic nuisance in San Francisco, and his starting out was simply the result of a job to get rid of him.

### A Chance For Somebody.

The Chinaman who runs a vegetable garden on George Bath's ranch will sell his lease, garden, horses, wagon and tools for \$400 and quit the country. Had the League put up one dollar a piece bought this Chinaman out and let Ross & Swail peddle the vegetables the firm would have still been running and the money sent away for California vegetables would have remained in town. There is still an opportunity for buying this Chinaman out and getting rid of him. The vegetables in sight are worth the price asked.

### Taking Advantage of Misfortune.

Soon after Independence, California, was almost reduced to ashes some of the citizens of Big Pine, Inyo county, called a meeting, not to help her neighbor, but to initiate a move to have the county seat removed from Independence to the latter place. It is not strange that the Independent should give these people a well merited scolding.

### Typhoid Fever.

Charles Hartford, of New Castle, Westchester Co., N. Y., suffered with typhoid fever, and was given up to die. He was restored to health in one week by taking five Brandreth Pills every night and drinking plentifully of oatmeal gruel. A few doses of Brandreth's Pills will invariably cure any kind of fever.

### G. A. R. Visiting Cards.

Person who have been solicited by the agent of a Virginia City printing establishment for orders for G. A. R. visiting cards are informed that such work can be done at the APPEAL office with any style of card at the same price. There is no necessity of sending to Virginia City for this work.

### Only 93 Cents.

The silver quotation today as telegraphed is only 93 cents, per ounce. Thinking it might be a mistake it was repeated. Words failed to do the subject justice and we leave it to our readers to express the sentiments of all silver men against the crime against silver.—Reveillee

### A Lively Storm.

Yesterday morning about three o'clock, a terrific thunder storm passed over the city. For about an hour the thunder was a succession of heavy claps like a cannonade, accompanied by continuous lightning, so that one flash seemed merged into the other. The rain was very slight.

### Peddler's License.

The City Trustees have raised peddlers' licenses to ten dollars a day.

## The Salt Mines of Nevada.

If the salt formations of Nevada were in railroad communication, there would be no market in this country for the foreign article. In Lincoln county, on the Rio Virgin there is a deposit of pure rock salt which is exposed for a length of two miles, a width of half a mile and is of unknown depth. In places canons are cut through it to a depth of 60 feet. It is of ancient formation, being covered in some places by basaltic rock and volcanic tufa. The deposit has been traced on the surface for a distance of nine miles. It is so solid that it must be blasted like rock, and so pure and transparent that print can be read through blocks of it a foot thick. At Sand Springs, Churchill county, there is a deposit of rock salt 14 feet in depth, free from any part of foreign substance, which can be carried at the rate of five tons a day to the man. The great Humboldt salt field is about fifteen miles long by six wide.

When the Summer heats have evaporated the surface water, salt to the depth of several inches may be scraped up, and underneath is a stratum of pure rock salt of an unknown depth. Soda, borax and other valuable minerals also exist in large quantities in these localities, and branch railroads will sooner or later bring them into market. A considerable business in gathering borax is already established on the line of the Carson & Colorado Railroad. If Nevada will cut down her working expenses and develop her natural resources, she will be above the necessity of seeking land grants from her neighbors or from the general Government.—San Francisco Bulletin.

### Must We Expect Another?

It has of late years been held as the correct theory that an earthquake and volcanic eruption is caused by the disturbance of the molten matter in the earth. This disturbance is caused by a large portion of the earth's crust becoming detached from the underside and falling into the molten sea below. This causes a commotion in the sea of lava, which throws up vast quantities through volcanoes, and also creates a wave, which travels along under the earth's crust. Now, it is easy to see that so long as this wave encounters no obstruction it will decrease in force until it spends its strength, just as the ripples from a stone thrown in water are soon lost. If, however, it encounters some portion of the overhanging crust lower than the rest, which presents an obstruction, it will dash against it and cause another earthquake.

Under large mountain ranges the earth's crust must necessarily be thicker to support the weight above, and this may be the cause why slight shocks of earthquake are felt along this Coast, which invariably follow volcanic disturbances and earthquakes in more remote locations. If this theory is correct it will not be long before a shock may be felt in California, which comes from the almost spent force of the New Zealand earthquake.

By comparing the time between the New Zealand shock and the one in California the velocity of the lava wave could be accurately determined

### Took the Hint.

"I'm a rough unlettered fellow," remarked a Carson lover the other evening to the woman he had selected for a mother-in-law.

"But if your daughter would only marry me she'd find me like the sturdy oak with she twining round me like a tender vine."

"I'd prefer you'd be like the Balsam of Giliad tree!" responded the old lady.

"And why pray?" "They leave so early," and she gave a side glance at the clock. He snatched his hat and was gone.

### Garland Gives it Back.

WASHINGTON, July 14th.—In a few days, certainly before he leaves on his Summer trip, Attorney General Garland will hand back to Professor Rogers his Pan-Electric stock certificate. The stock issued to Garland bore the nominal value of \$1,500,000. At one time it had some little value but to-day it is worth just the paper it is printed on, and no more. It has never been of any value to Garland, and has brought him nothing but trouble.

—WANTED—A girl to do general housework. Apply at this office.

## De Ladies and Men.

As city merchants we not only offer to out-of-town customers important advantages in prices, but goods and styles fresh and new from the leading markets of Europe and America.

We send CATALOGUES and SAMPLES FREE, and spare no pains to thoroughly suit those who entrust their orders to us. All goods are selected from our general stock, and are the same in style and price as those for city trade.

Thousands of customers all over the coast attest the skill, taste, discretion and care displayed in this branch of our work, as well as the great benefit and satisfaction thereby derived.

Those who have never ordered goods from us by mail should give this system a test. It will pay.
